

CHINT Group Overview

From China to the World, CHINT continues to promote technological innovation

¥197 Billion Total Assets
¥178 Billion Total Sales Revenue
15% YoY Sales Revenue Growth
50,000+ Global Employees
500,000+ Direct & Indirect Employment Created

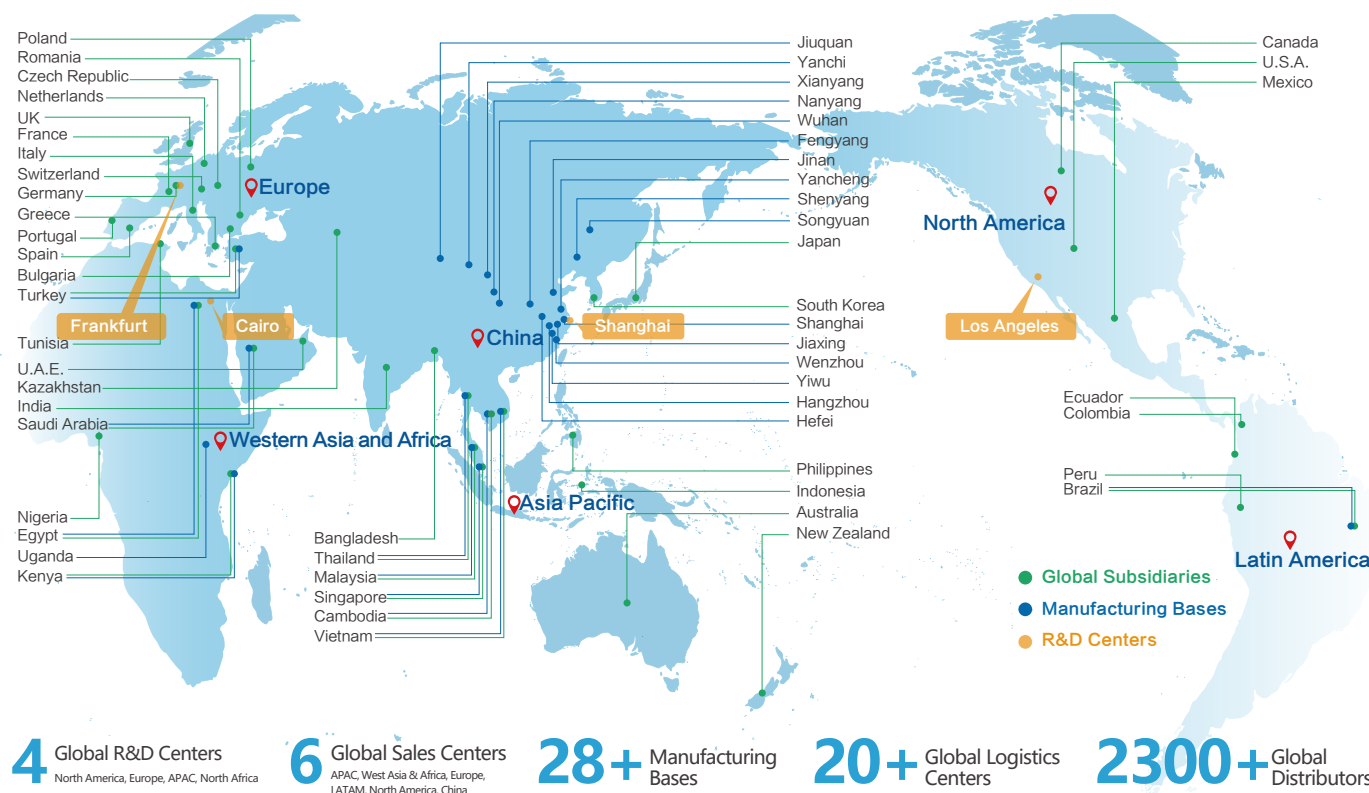

Data as of 2024 Dec 31st

ve implemented the "OneCloud, Two rks" strategy, which involves integrat- g data, IoT, AI, and manufacturing to a platform-based enterprise.

ve also integrated global resources to ite R&D innovation and talent develop- Currently, we have over 20 professional ch institutes with more than 4000 R&D nnel, and our annual R&D investment its for 3 - 12% of our sales

ve expanded our global intellectual proper- ch, and currently hold over 10,000 s. CHINT actively engages in over 40 national ternational standardization technical ttees, contributing to the development and n of over 650 national and international rds

CHINT is building new momentum for "3+2" industrial development

In recent years, CHINT has embraced strategic imperatives such as industrialization, technological advancement, global expansion, digitization, and platform development. The company has strategically positioned itself across three key sectors: 'Green Energy', 'Intelligent Electrical Solutions', and 'Smart Low-carbon Solutions'. These sectors are bolstered by two pivotal platforms: 'CHINT Global' and 'Sci-Tech Innovation Incubation'.

| Green Energy Ecophere

| Intelligent Electric | Sector Solutions

| Smart Low-carbon

We offer services, including design, solutions, system integration, construction, investment and operation, O&M management, and financial services to local governments, urban energy infrastructure investors & operators, public institutions with energy-saving and carbon reduction needs, industrial and commercial enterprises, and end-user customers, with the core mission of helping achieve energy savings and carbon reduction.

CHINT Green Energy
Clean Energy Solution Provider

Empower the World

Let's Shape the Future of Zero-carbon Together

Ever since CHINT started its business the renewable energy industry in 2006, the company has since established a strong and comprehensive industrial chain, encompassing silicon material production, ingot, wafer slicing, solar cell, solar module, PV inverter, project development and investment, EPC, and smart O&M. The company offers One-stop energy solutions to global clients including solar project, ESS, distributed generation and energy commercialization, CHP, and comprehensive energy services.

130 GW+
Global PV Module Shipment

40 + Countries
Regions
with Project Development and EPC Business Covered

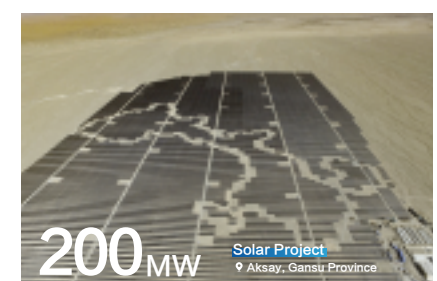

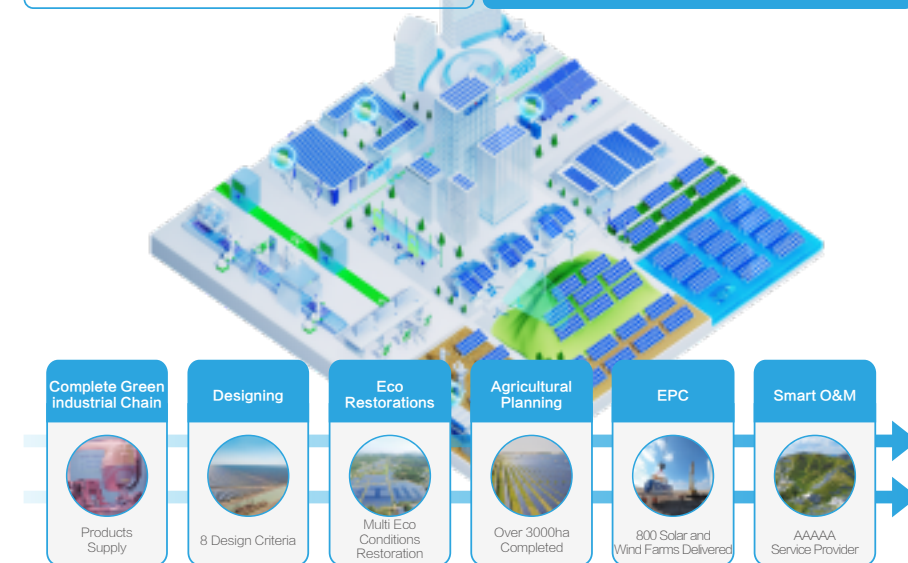

1.8 M+
Residential PV Clients

80 GW+
Global O&M Contracts

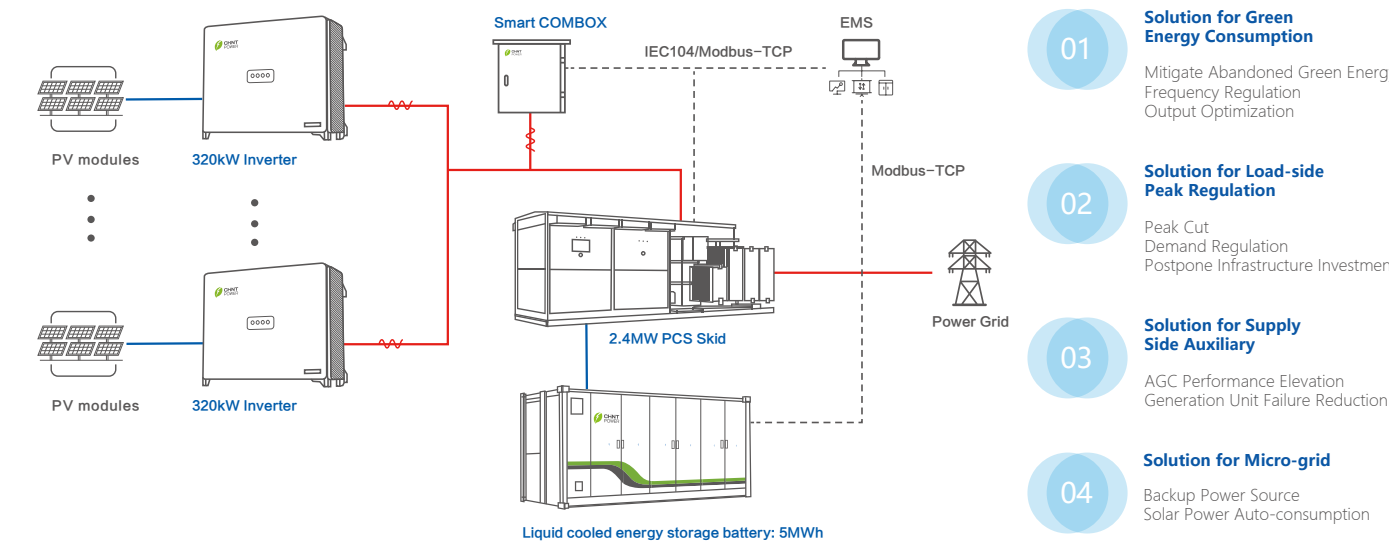

CHINT "Splendid PV & Wind" Innovative Project Developing Business Model

Established as a subsidiary of CHINT Group in 2009, with registered capital of RMB9.38 billion, CHINT Green Energy is a clean energy solution provider devoted to the new energy development, construction, operation, and services. Expertise and proficiency in realms such as design, procurement, construction, test, and O&M have made us a versatile EPC contractor and One-Stop Solution Provider. Up to now, the company has invested and constructed over 800 solar and wind power plants globally, which proves that CHINT Green Energy occupies the front rank in China. Relying on the unremitting efforts of CHINT Group in the power energy sector over the past 40 years and taking full advantage of the entire electrical industry chain, we have emerged as an important influencer in renewable energy with leading edge in both system integration and technology integration in the industry.

Complete Green Industrial Chain & Solution
Land Reclamation and Eco Restoration
Practical Fusion to Environment
Social and Eco Benefits through Innovation

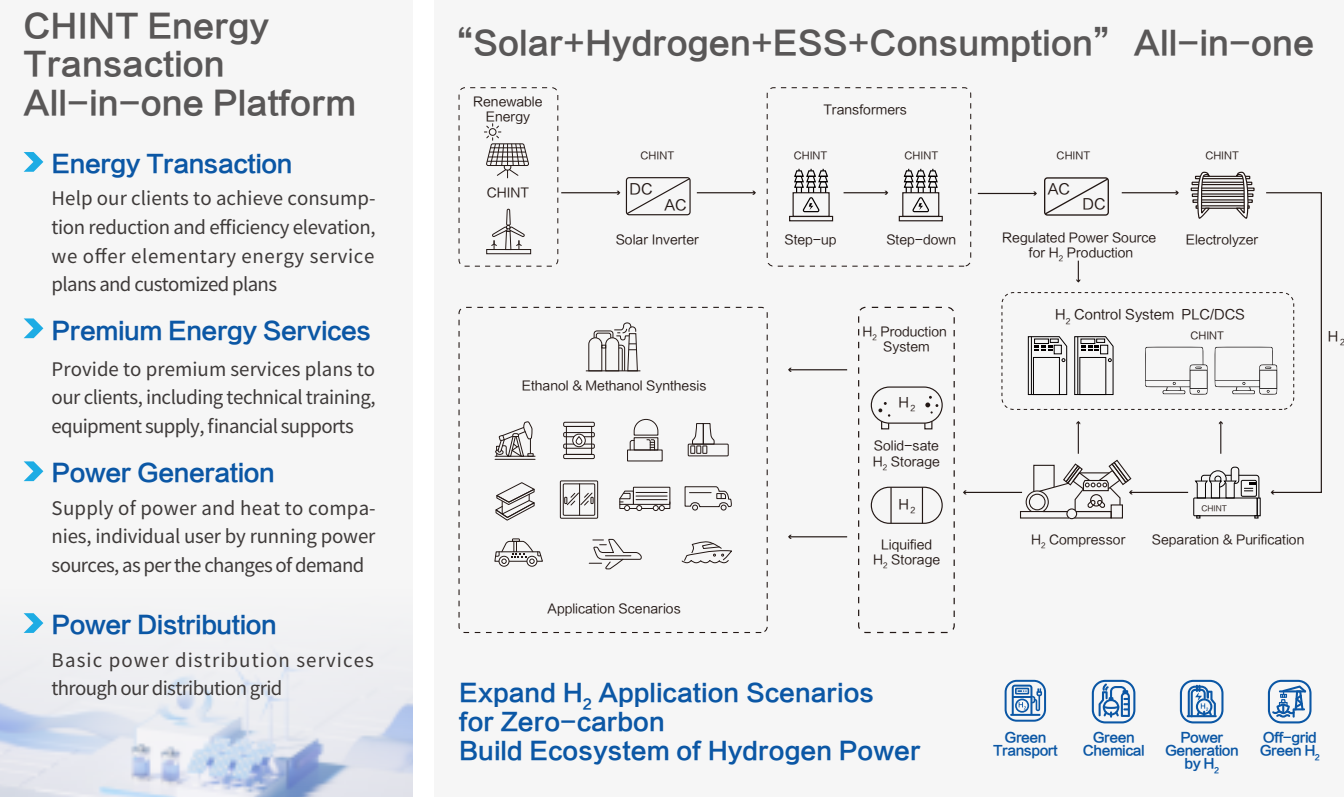

Solar & Energy Storage Core Products

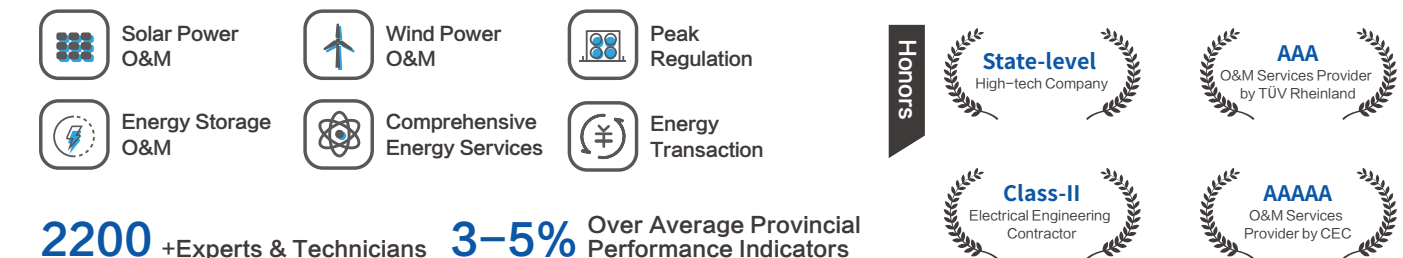

> PV & ESS Fusion, Improving Green Energy Utilization Rate
> Smart Temperature Control, Increase System Lifespan
> Resistance to Extreme Weather, Resistance to Salt-alkaline and Sandstorm
> High Current Compatible, Less Concern in Choosing the Solar Panel

Green Energy to Green Hydrogen Application Solution

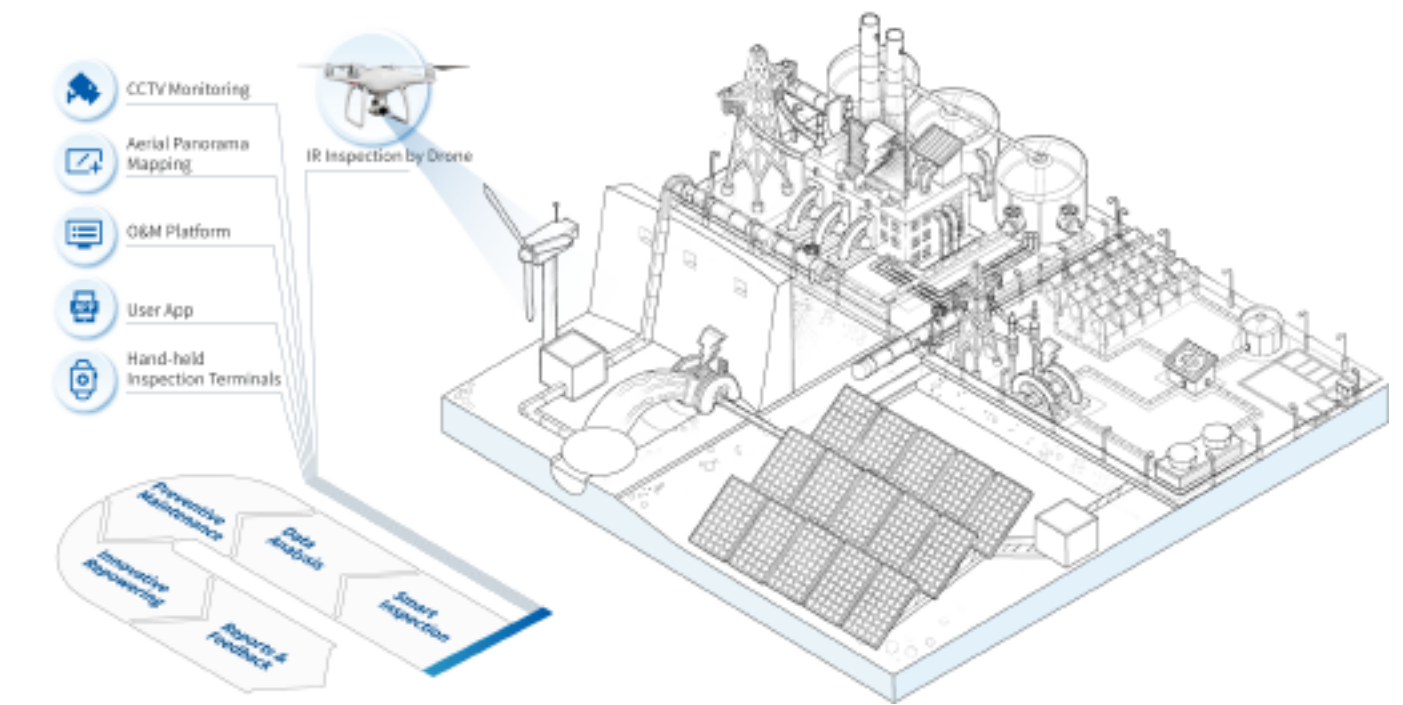

Green Assets Management Services

As the subsidiary of CHINT Group, the CHINT O&M is a specialized Operation & Maintenance Services provider for all kinds of renewable energy assets. Backed by the expertise and know-how in the green energy realms during the last 40 years, our O&M services now have a comprehensive coverage over more than 30 provinces in China and in many countries globally. Through our digitalization, lean management and lean management as core competitiveness, we are proud to offer our services to assets under all geographical conditions, all types, and all voltages.

2200 +Experts & Technicians
3-5% Over Average Provincial Performance Indicators

Smart O&M Solution for full lifecycle, adding value to green assets and granting green energy industry with "new productivity"
